Personal Statement

I am a third year student of Computer Science and Econometrics. I develop in programming and data analysis.

I have chosen C# programming and its consequences (e.g. WPF) as my main development point. I would like to develop in this direction as a Junior Developer, but I am practicing as a self-taught student now.

I also have skills in data analysis through studies. I can deal with data modeling, data analysis (via Excel and R language) and an appropriate presentation.

Education

In progress (graduation in 2023) *Part-Time Studies*
Higher Diploma in Programming and Data Analysis
AGH University of Science and Technology, Cracow, Poland
